SAFE BIOCARE
sprl

- Cosmetics
- Nutraceuticals
- Biocides
- Dangerous Chemicals

TECHNICAL & REGULATORY CONSULTING

SAFE BIOCARE's objective is to ease global exchanges between exporting SMEs by advising them, especially on the compliance with European, US and other legislations on health, safety and environmental issues.

Our staff also provides comprehensive technical support to the cosmetic industry.

Moreover, we have been launching an ambitious R&D project designed to rapidly evaluate the effectiveness of novel preservative systems. This project, sponsored by the Walloon Region of Belgium, will be carried out in partnership with the University of Louvain (Louvain-la-Neuve, Belgium) and the University of the West of England (Bristol, UK).

Services:

- Technical & regulatory consulting :
Cosmetics, Nutraceuticals & Biocides.
- Chemical Hazard Communication:
Worldwide classification and labeling of chemicals
MSDS authoring
GHS and REACH coaching.
- Safety assessment and claim substantiation of cosmetics (raw materials and finished products).
- Cosmetics GMP auditing : ISO/DIS 22716.
- Quality Control: physicochemical and microbiological analysis.
- Regulatory compliance: submission of official documents to local competent authorities (EU, USA/FDA, Japan, Canada, ASEAN, Middle East...).
- Training and organization of seminars.
- Research: development of new methods of preservative system testing.

LISAM SYSTEMS

Distributor of "LISAM SYSTEMS" a Hazard Communication software (MSDS, labeling, transport documents ...)
